Due to the annual increment of his pay sanctioned.

These were transferred from the Geological Department from 1st February 1901. (Vide Government Order No. 212-3/F 8 Geol. dated 7th February 1901). Only 5 months estimates were transferred to this office budget. Hence the difference. (And the Geological Department may demand, for all practical purposes, the full time of their service; their spare time being given to the Agricultural Department in return for the time spent for their supervision)

For a man with the qualifications of the present Probationery Assistant Chemist Rs 150/- a month appears, by comparison with other Departments to be anything but extravagant. It is therefore requested to grant him Rs 100/- per month for the 1st six months of the official year and Rs 150/- per month for the remainder of the year, if the Probationery Assistant Chemist proves satisfactory.

A. In the 1st estimate freight, import duty &c was not included as mentioned in this office letter No. 54 dated 9th June 1899, accompanying the estimate. When it was discovered that these had to be provided for from the Sum Sanctioned Rs 2000/- of order had to be cancelled, and want of this apparatus will be hampering work.

B. Of Course no provision was made for apparatus for the two Assistant Chemists transferred by Government Order No. 212-3/F 8 Geological, dated 7th February 1901, and the supply of apparatus transferred with them is far short of meeting their requirements for doing proper work. (Serial No. 2 C)

C. As in the case of chemicals only such apparatus as were required for current use were ordered. But as the apparatus is of a very fragile nature more or less breakage is unavoidable. This together with other wear and tear has to be provided for. (Generally a fixed annual grant is made for this purpose to all Government Laboratories in Europe and America).

D. The large and more expensive apparatus referred to in my letter No. 54 dated 9th June 1899 accompanying the 1st estimate, although it would assist materially in the work carried out, is not asked for now so as to keep the estimate as low as possible.

Of course with so much larger staff and Contingencies of the laboratory, as well as, the office to be provided for a considerable increase cannot be avoided. But is hoped that with strict economy the expenditure will be kept inside of the Rs.1,000/- asked for.

Explanatory remarks for increase or decrease in estimates proposed.

It is at present impossible to make an accurate estimate on this account; as circumstances here differ so much from those in Europe and America.

The expenditures there on this score will far exceed what would appear advisable to spend here. It appears highly ~~probable~~ desirable to conduct pot experiments as soon as circumstances will permit, in the compound of the Chemical Laboratory. If Government grant this request the three thousand rupees asked for experiments will, I expect, be a very low estimate.

Explanatory remarks for increase or decrease in estimates proposed.

The Government has been requested to sanction this amount in the correspondence ending with this office letter No. 341 of 1st April 1901.

Rs 4,000 was sanctioned in Government Order No. 151-2 Geol. of 7th March 1900 for fitting up the laboratory. This amount having been utilised for remodeling a portion of the laboratory, it is now requested that Rs 6,000/- may be sanctioned for fitting up and plumming the new portion under construction and finishing that portion of the old building which was not provided for in the above estimates.

As yet no furniture has been supplied to this office Hence this proposal.

meeting the expenses of coal, kerosine oil and contingencies. I have to request you to kindly present to the Governe-ment the 2nd Supplemental Budget Estimate to meet these charges. Mr Smeeth thinks that Rs 900/- would be necessary to meet these, and I therefore request you to add Rs 900/- to my Budget — either to the "Contingencies", or preferably to make a Special heading for "The Gas house expenses".

I have the honor to be
dear Sir,
Your most obedient Servant

(b) Chemist, as Govt. order did not intend to give this increase;

Rs 1000 under Books;
Rs 400 under Contingencies;
Rs 2000 under Experiments;
Rs 720 under pay of Foreman;
Rs 712 under Office furniture;
Rs 6000 under Laboratory Fitting and Plumbing.

Rs 11,132.

2. The total of the grant allowed after deducting the above is Rs ~~32,574~~ 33,474-0-0 (32574+900) = 33,474

44,606 − 11,132 = 33,474

3. The Agricultural Chemist is requested to furnish further particulars as regards item No 2 in the Supplemental Budget, "Laboratory Fitting and Plumbing", ~~for which the~~ the sum of Rs 6000 ~~has~~ ~~been~~ provided, ~~but~~ therefor being now disallowed. Separate sanction should have

have been obtained including the addl charge for for the increase of pay by one rupee recommended in favour of the Superintendent, Agricultural Chemist's office. (vide item No 8 in the Budget Estimate)

4. The Comptroller, Mysore Govt is requested to check the increases on account of the Marginally noted transfers of charges from other departments ~~as noted in the margin~~ with the decreases in those departments.
